**DETAILED ACTION**

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-12 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Specifically the claims are directed to a computer program and are not limited to being embodied on a tangible computer readable medium. The claims could be amended to be statutory by inserting language stating that the computer program is encoded on a computer-readable medium. See MPEP 2106.

***Allowable Subject Matter***

Claims 1-9 allowed.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
